

Canada Research Chair (Tier II) in Pre-clinical MRI

Department of Radiology
Cumming School of Medicine
University of Calgary

The Department of Radiology, in partnership with the Hotchkiss Brain Institute in the Cumming School of Medicine at the University of Calgary invites applications for a tenure-track position at the Assistant Professor level in the area of advanced MRI methodologies for ultra-high field (UHF) pre-clinical MRI of the central nervous system (CNS). Pre-clinical MRI experts with research experience outside the CNS will also be considered.

Tier II Chairs are intended for exceptional emerging scholars (i.e., candidates must have been an active researcher in their field for fewer than 10 years at the time of nomination). Candidates who are more than 10 years from having earned their highest degree and who have had career breaks, such as maternity, parental, or extended sick leave, clinical training, etc., may have their eligibility for a Tier II Chair assessed through the program's Tier II justification process. Research interruptions caused by the COVID-19 pandemic (e.g., closures) are recognized as, and may be counted as, an eligible delay (credited at twice the amount of time) beginning March 1, 2020. Please contact UCalgary's Office of Research Services for more information: ipd@ucalgary.ca. Further information about the Canada Research Chairs Program can be found on the Government of Canada's [CRC website](#), including eligibility criteria.

Applicants must have a PhD degree or equivalent, at least 2 years of post-doctoral experience (or equivalent), and an outstanding record of research productivity in pre-clinical MRI. They must have a track record of peer-reviewed funding (e.g. post graduate and/or post doctoral scholarships) at the local and national level. The candidate will be expected to develop an internationally recognized extramurally (Tri-Council) funded research program (for which 75% time will be protected) and to work collaboratively with other investigators to grow the pre-clinical MRI research program. In terms of educational activities, applicants must show evidence of successful teaching and supervision and/or mentorship of trainees at the undergraduate or graduate level. A competitive year-round salary and an attractive start-up package will be provided. The selected candidate will also be nominated for a Natural Sciences and Engineering Research Council (NSERC) Tier II Canada Research Chair (CRC) in Pre-Clinical Magnetic Resonance Imaging. Further information about the Canada Research Chairs Program, including eligibility criteria, can be found on the Government of Canada's [CRC website](#).

The successful candidate will join a vibrant and collaborative [Image Science](#) program in the [Department of Radiology](#) at the [University of Calgary](#). The Image Science Division is home to 15 faculty members and 5 imaging centers, including the [Experimental Imaging Center](#), which houses a 9.4T Bruker small animal MRI and MRI-guided pre-clinical focused ultrasound infrastructure. Other research dedicated MRI equipment includes three 3T human whole body scanners. The [McCaig Institute's Center for Mobility and Joint Health](#) (MOJO) also houses extensive high resolution micro-CT, dual energy CT, peripheral MRI, and DXA. These imaging facilities are part of the Cumming School of [Medicine's Centre for Advanced Technologies](#), which includes other complementary core facilities in microscopic imaging, genomics and informatics, flow cytometry, mass spectroscopy, as well as an extensive medical vivarium to support preclinical studies. The Faculty of Veterinary Medicine also has facilities that support large animals for preclinical studies. The candidate will also become a member of the [Hotchkiss Brain Institute](#), a multidisciplinary group of over 300 faculty members spanning 16 academic departments and nine faculties at the University of Calgary.

The University of Calgary is Canada's leading next-generation university – a living, growing and youthful institution that embraces change and opportunity with a can-do attitude. Located in Canada's most enterprising city, the university is making tremendous progress on its Eyes High journey to become one of Canada's top five research universities, grounded in innovative learning and teaching and fully integrated with the community it both serves and leads. Ranked as the top young university in Canada and North America, the University of Calgary inspires and supports discovery, creativity and innovation across all disciplines. For more information, visit ucalgary.ca.

Calgary is one of the world's cleanest cities and has been named one of the world's most livable cities for years. Calgary is a city of leaders - in business, community, philanthropy and volunteerism. Calgarians benefit from a growing number of world-class dining and cultural events and enjoy more days of sunshine per year than any other major Canadian city. Calgary is less than an hour's drive from the majestic Rocky Mountains and boasts the most extensive urban pathway and bikeway network in North America.

The University of Calgary, through its Cumming School of Medicine, its health research institutes, and its academic departments seeks to recruit and retain a diverse and inclusive workforce that will contribute to creating the future of health. We are committed to fostering diversity through cultivating an environment where people with a variety of backgrounds, genders, interests, and talents feel welcome and supported.

The University recognizes that candidates have varying career paths and that career interruptions can be part of an excellent academic record. Candidates are encouraged but not required to provide any relevant information about their experience and/or career interruptions to allow for a fair assessment of their application. Selection committees have been instructed to consider, and be sensitive to, the impact of career interruptions, when assessing the candidate's research productivity.

Interested individuals are encouraged to apply online via University of Calgary Careers webpage using the "Apply Now" link. Please be aware that the application process allows for a maximum of four attachments. Your application attachments should be organized to contain the following (which may require you to merge documents):

- Cover letter and Curriculum vitae including the names and contact information for three referees
- Statement of research interests and a description of a proposed 5-year research plan for the Chair (3 pages max)
- Statement on trainee mentorship and education philosophy (1 page max)
- Statement on Equity, Diversity, and Inclusion in research (1 page max)

Questions about this position may be directed to:

Bruce Pike, PhD

The University of Calgary strongly recommends all faculty and staff are fully vaccinated against COVID-19.

The University of Calgary has launched an institution-wide [Indigenous Strategy](#) in line with the foundational goals of [Eyes High](#), committing to creating a rich, vibrant, and culturally competent campus that welcomes and supports Indigenous Peoples, encourages Indigenous community partnerships, is inclusive of Indigenous perspectives in all that we do.

As an equitable and inclusive employer, the University of Calgary recognizes that a diverse staff/faculty benefits and enriches the work, learning and research experiences of the entire campus and greater community. We are committed to removing barriers that have been historically encountered by some people in our society. We strive to recruit individuals who will further enhance our diversity and will support their academic and professional success while they are here. In particular, we encourage members of the designated groups (women, Indigenous peoples, persons with disabilities, members of visible/racialized minorities, and diverse sexual orientation and gender identities) to apply. To ensure a fair and equitable assessment, we offer accommodation at any stage during the recruitment process to applicants with disabilities. Questions regarding [diversity] EDI at UCalgary can be sent to the [Office of Equity, Diversity and Inclusion \(equity@ucalgary.ca\)](mailto:equity@ucalgary.ca) and requests for accommodations can be sent to Human Resources (hrhire@ucalgary.ca).

All qualified candidates are encouraged to apply; however Canadians and permanent residents will be given priority. In this connection, at the time of your application, please answer the following question: Are you a Canadian citizen or a permanent resident of Canada? (Yes/No)
